

## Université de Biskra Contribution to Sustainable Development

Following Law No. 98-11 of August 22, 1998 on the orientation and program law with a five-year projection on scientific research and technological development, following Law No. 99-05 of April 4, 1999 on the law of orientation on higher education, following Executive Decree No. 219-98 of July 8, 1998 establishing the University of Biskra, following Executive Decree No. 90-09 dated February 17, 2009 and Executive Decree No. 129-14 of April 5, 2014,

- The University of Biskra is an Algerian, public, administrative establishment with legal personality and financial autonomy.
- It contributes to the development of scientific and technological research and the acquisition, development and dissemination of knowledge and the transfer of knowledge. It also contributes to raising the scientific, cultural and professional level of citizens through the dissemination of culture and scientific and technical information.
- The University of Biskra also has the mission of participating in the economic, social and cultural development of the Algerian nation through the training of executives in all areas and also contributes to social promotion by ensuring equal access to the highest forms of science and technology to all those who have the aptitude.
- Our university participates and contributes to the development of sustainable development policies through the identification of problems and challenges facing sustainable development, through participation in intersectoral dialogue on the objectives of sustainable development, such as the participation and organization of conferences, study days and workshops.
- The University of Biskra also participates in national or international research and mobility projects which may consider comparative studies and research developing international best practices in order to address the objectives of sustainable development.
- Furthermore, these sustainable development objectives can also be achieved, in collaboration with the university by the student and social partner, namely the scientific, cultural and sports clubs through the programming of volunteering, research and development actions educational resources. These actions are sanctioned by a report presenting the efforts, results and progress achieved in the various objectives of sustainable development such as the objectives linked to the

elimination of poverty, quality education and the preservation and restoration of ecosystems, terrestrial and other.

The University of Biskra offers significant training on the objectives of sustainable development to all academics through information days including all registered students, outgoing diplomas, teachers, administrative staff, the socio-partner economic, the private sector and local authorities can attend on an optional basis.

The rector
